

Mission Statement

Mission of the Temple

The Hanuman Mandir of Greater Houston is a house of worship for Hindus to worship, pray & perform community services such as education, personal and group family life consultations, planning local community events. The focus is for participants to develop and enhance core human and Vedic values by practicing kindness, tolerance, transparency and respect for all. The Hanuman Mandir Venue will be used as a vehicle to hold classes, deliver inspirational and holistic messages through invited and in community speakers and promote community service by volunteerism of talent and skills. The projects will aim at creating a healthy experience for the local community.

Community Services such as those listed below, will be supported locally and globally on a need basis, irrespective of religion, race, and ethnicity and based on availability of resources and priorities established by the Temple management.

- Health Advisory Service
- Helping Local Food Banks
- Educational sessions
- Yoga classes
- Health Seminars
- Collecting needed resources from Congregation for communities affected by natural disasters.

Empowering the Women- If you educate a man you educate an individual, but if you educate a woman you educate a family (nation). Since 2011, I am promoting (A Non-Profit Organization) Women Education & Empowerment in Rural India. I encourage you to visit the school on your next trip to India (1.5 hours from New Delhi).

BSPES EDUCATE MOTIVATE EMPOWER GIRLS IN RURAL INDIA

A Non-Profit Organization Promoting Women Education and Empowerment

NGO- Tax Exemption under Government of India Income Tax 1961 80G(5)(VI) and 12AA
USA Federal Income Tax Exemption under section 501(c)(3) EIN# 46-5696939 Public Charity Status: 170(b)(1)(A)(vi)

We educate, motivate and empower the young women of rural communities to grow into proud, contributing family members.

With 90% or over attendance

- Health Checkup
- Eye Checkup
- Sanitary Napkin Program
- Toilet Construction at the house
- Clean Water Program
- Breakfast Program

Promote Health and Hygiene

Provide Value Based Education

- 925 girls in the school
- Lesson Plan Based Learning
- Digital/Visual Learning
- NCC and Scout Certification
- Higher Education Assistance

- USHA Sewing School
- Employment Assistance
- RKM Vrindavan Nursing Program
- NTTF Bangalore Technical Courses

Facilitate Wealth Creation through employment

CALENDAR EXPLANATION

महाक्रषि वशिष्ठ॥ यस्मिन् पक्षे यत्र काले येन दृग्गणितैक्यम्। दृश्यते तेन पक्षेण कुर्यात्तिथ्यादिनिर्णयम्॥

Biggest misconception is "Indian Hindu festivals observance date in the Indian calendar / panchanga is applicable for all location in world". Observance dates from Indian Panchanga is valid only in India and is not transferrable to other locations. Another misconception arises due to the time zones differences is as USA/Canada and Europe is behind in time then Festival will come a day later in USA/Canada and Europe. This is incorrect. Tithis, Nakshatras, Yoga and Karana are events, they end at the same time instance all over the world. After calculating tithi and nakshatra end times in local timezone, the different rules help to determine each festival. The local sunrise, sunset, moon-rise, and moonset times are used with Tithi to determine festivals. Hence, sometimes festivals may appear on the same day as India or a day before in the countries west of India. The countries east of India the festival may appear on the same date as India or a day later.

Hindu day changes at the sunrise (not midnight), a Hindu day (Vaara) is from one sunrise to another sunrise. The Hindu date (tithi) doesn't change at the midnight, and it is not always fixed 24 hours long

it can be anything between 19 to 26 hours. Each 12 degrees distance between the Sun and the Moon is Tithi. The tithi, nakshatra, yoga and karana are based on geocentric positions of the Sun and the Moon. This astronomical phenomenon happens at the same time on the earth everywhere, and hence tithis, nakshatra will begin and end at the same time all over the world, and we must convert them to our local timezone. Indian panchang makers convert this times to Indian time. Likewise, other countries needs to convert these

times in their time zone from UTC.

For example: October 17th 2008 the Ashwayuja (Ashwin) Krishna Paksha tithi Tritiya ends at 16:39:21 Indian Standard Time, and chaturthi starts. That means at 16:39 hours there is trititiya still prevailing in India. The time difference with Seattle and India is 13 hours 30 minutes (with day light saving time the difference is 12 hours 30 minutes from IST). So, let's subtract 12 hours 30 minutes from the 16:39:21. That gives us 04:09:21 AM on October 17th. So on October 17th after that time we'll have chaturthi tithi and before we have trititiya. The earth doesn't wait for tithi or festivals to arrive in your timezone. **The sun doesn't rise instantly at the same time all over the world Hence we need local sunrise, sunset, moonrise and moonset times, along with Tithi, & Nakshatra ending times to determine festival date and time.**

How festivals are determined? The sankathara chaturthi the chaturthi tithi must be prevailing during the moonrise time. Moonrise in New Delhi on a given date is at 19:36 and in West Bengal, Kolkata is at 19:25 PM. Now trititiya ends at 19:32 PM IST. So Kolkata will celebrate karwa chauth/sankathara chaturthi on the Tomm where as people in New Delhi will celebrate on the same day. **Timings in this calendar are end timings of the Tithi and Nakshatra and for Sun/Moon entering time when it enters a new rashi.**

Uttarayana/Dakshinayana: The season occur based on earth's position around the Sun. This is due to Earth's tilt of 23.45 degrees. The Earth orbits around Sun with this tilt. When the tilt is facing the Sun, we get summer and when the tilt is away from the Sun we get winter.

This tilt creates an illusion that the Sun travels north and south of the equator.

The Uttarayana (Winter Solstice) is the Sun appearing to move north. The Dakshinayana (Summer Solstice) is the Sun appearing to move towards South. This causes seasons, equinoxes and solstices.

There is a common misconception that Makara Samkranti is the Uttarayana. This is because at one point in time Sayana and Nirayana Zodiac were same. Every year equinoxes slides by 50 seconds due to precision of equinoxes, giving birth to Ayanamsha and causing Makara Samkranti to slide further. If you think Makara Samkranti is uttarayana then as it is sliding it will come in June after 9000 years. **All Drigganitha Panchanga makers like mypanchang, Rastriya Panchang, Janmabhumi Panchang, will use the position of the tropical Sun to determine Uttarayana and Dakshinayana. Hence January 14th isn't Uttarayana. Actual Uttarayana occurs on December 21st/22nd of every year. The same for Rutu. Rutus are always observed based on Tropical position of Sun.**

About myPanchang.com: myPanchang.com is the leading panchang maker providing the most accurate panchagam for over more than 394 cities all over the world based on highly accurate driga ganitha. Most temples in the world rely on myPanchang.com for accurate Panchang data and festival observance times. For more details please visit <http://www.mypanchang.com>.
